EDUCATION

Bachelor of Technology , National Institute Of Technology Raipur <i>Metallurgical and Materials Engineering CGPA - 8.44</i>	May'2025
Intermediate , Angel's Abode Public School , Tikamgarh <i>Percentage - 92.4</i>	May'2021
Matriculation , Angels Abode Public School ,Tikamgarh <i>Percentage - 89</i>	May'2019

EXPERIENCE

Data Analyst Intern	[Feb'24]
Virtual Case Internship PwC	<i>Remote</i>
- Streamlined data processes by automating pipelines in Power BI, resulting in the creation of interactive dashboards that refined customer retention strategies and identified key factors contributing to churn within a one-week timeframe. - Collaborated with 5+ stakeholders to extract, validate, and analyze datasets of 100,000+ records, delivering actionable insights that supported stakeholder decision-making and improved operational efficiency	
Graduate Engineer Trainee	[July'25 - Dec'25]
AMNS SURAT	<i>Surat Gujrat</i>
Collected and structured plant production data while collaborating with cross-functional teams to understand process workflows. Performed basic analysis on production trends and equipment performance to identify inefficiencies. - Monitored key KPIs and gained hands-on exposure to industrial equipment, linking operational data with real-time processes.	

SKILLS

Technical Skills	Python, SQL, Power BI, Excel
Frameworks and Libraries	Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn
Soft Skills	Problem Solving, Quantitative analysis , Cross Team Collaboration, Leadership
Areas of Interest	Business Analysis, Data Analysis

PROJECTS

Music Store Sales Analysis Link	Jun'24
- Performed in-depth SQL analysis on music store data, uncovering top 5 revenue-generating artists and improving sales trend visibility by 45%, aiding data-driven decisions. . - Leveraged SQL to analyze 5000+ records, executing complex queries with JOINS, aggregate functions, and subqueries, enabling a 25% reduction in data processing time and delivering actionable insights.	
Cost and Profitability Analysis of Food Delivery Operations using Python Link	Jun'24
- Utilized Pandas, NumPy, Matplotlib, and Seaborn to analyze data from 10,000+ deliveries, identifying a 15% reduction in average delivery cost through optimized routing. . - Provided strategic recommendations based on key cost-driver insights, leading to a 12% increase in profit margin for targeted zones. .	
BlinkIt Sales Insights (Power BI, Excel) Link	Jul'24
- Developed interactive Power BI dashboards to track KPIs such as sales trends, customer behavior, and product performance - Automated sales reporting processes using Power BI and Excel for a dataset of 15,000+ transactions. Developed dashboards that improved business visibility, leading to an increase in marketing effectiveness 12%.
